

# Open Source Report

Name: SCA-demo-scan

Notes: SCA open-source sample-report

This report lists all the open source libraries found in your application, and their associated open source Risk Levels. Open Source Risk Levels are not the same as the Risk Levels in Security Reports, and not related to the vulnerabilities of specific issues. You can see if any of the libraries have known vulnerabilities in Issue Management view.

Report for application: **\_SCA-demo-scan**
