HCLSoftware Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version: HCL AppScan Remediation Advisories

Report Date: June 25, 2025

Product Description: HCL AppScan Remediation Advisories provide context-specific intelligence for each vulnerability found by AppScan.

Contact Information: HCL provides this accessibility conformance report for general information on an AS IS basis. For formal representations on specific proposals, please contact your HCL Client Representative.

Notes: None

Evaluation Methods Used:

This accessibility evaluation utilized a hybrid approach, combining automated and manual testing methodologies.

- Manual assessment was conducted using the Chrome browser, with a specific focus on keyboard-only navigation and interaction.
- Assistive technology incorporated NVDA screen reader version 2024.4.2 to simulate the experience of visually impaired users.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)
EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11) *AND* EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.

- **Partially Supports**: Some functionality of the product does not meet the criterion.

- **Does Not Support**: The majority of product functionality does not meet the criterion.

- **Not Applicable**: The criterion is not relevant to the product.

- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- EN 301 549:
    - Clause 9 - Web
    - Clauses 10.1-10.4 of Clause 10 - Non-Web documents
    - Clauses 11.1-11.4 and 11.8.2 of Clause 11 - Software
    - Clauses 12.1.2 and 12.2.4 of Clause 12 - Documentation and support services
- Revised Section 508:
    - Chapter 5 - 501.1 Scope and 504.2 Content Creation or Editing
    - Chapter 6 - 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.2 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A) All non-text content that is presented to the user has a text alternative that serves the equivalent purpose, except for the situations listed below. **Controls, Input :** If non-text content is a control or accepts user input, then it has a name that describes its purpose. (Refer to Success Criterion 4.1.2 for additional requirements for controls and content that accepts user input.); **Time-Based Media :** If non-text content is time-based media, then text alternatives at least provide descriptive identification of the non-text content. (Refer to Guideline 1.2 for additional requirements for media.) ; **Test :** If non-text content is a test or exercise that would be invalid if presented in text, then text alternatives at least provide descriptive identification of the non-text content.; **Sensory :** If non-text content is primarily intended to create a specific sensory experience, then text alternatives at least provide descriptive identification of the non-text content.; **CAPTCHA :** If the purpose of non-text content is to confirm that content is being accessed by a person rather than a computer, then text alternatives that identify and describe the purpose of the non-text content are provided, and alternative forms of CAPTCHA using output modes for different types of sensory perception are provided to accommodate different disabilities.; **Decoration, Formatting, Invisible :** If non-text content is pure decoration, is used only for visual formatting, or is not presented to users, then it is implemented in a way that it can be ignored by assistive technology.	Supports	
1.2.1 Audio-only and Video-only (Prerecorded) (Level A) For prerecorded audio-only and prerecorded video-only media, the following are true, except when the audio or video is a media alternative for text and is clearly labeled as such: **Prerecorded Audio-only :** An alternative for time-based media is provided that presents equivalent information for prerecorded audio-only content. **Prerecorded Video-only**	Not Applicable	Audio and video are not available in this component.

Criteria	Conformance Level	Remarks and Explanations
: Either an alternative for time-based media or an audio track is provided that presents equivalent information for prerecorded video-only content.		
1.2.2 Captions (Prerecorded) (Level A) Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such.	Not Applicable	Audio and video are not available in this component.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A) An alternative for time-based media or audio description of the prerecorded video content is provided for synchronized media, except when the media is a media alternative for text and is clearly labeled as such.	Not Applicable	Audio and video are not available in this component.
1.3.1 Info and Relationships (Level A) Information, structure, and relationships conveyed through presentation can be programmatically determined or are available in text.	Not Applicable	Navigation and Menu items not available in this component.
1.3.2 Meaningful Sequence (Level A) When the sequence in which content is presented affects its meaning, a correct reading sequence can be programmatically determined.	Supports	
1.3.3 Sensory Characteristics (Level A) Instructions provided for understanding and operating content do not rely solely on sensory characteristics of components such as shape, color, size, visual location, orientation, or sound.	Supports	
1.4.1 Use of Color (Level A) Color is not used as the only visual means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Supports	
1.4.2 Audio Control (Level A) If any audio on a web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level.	Not Applicable	Audio is not available in this component.
2.1.1 Keyboard (Level A) All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes, except where	Supports	

Criteria	Conformance Level	Remarks and Explanations
the underlying function requires input that depends on the path of the user's movement and not just the endpoints.		
2.1.2 No Keyboard Trap (Level A) If keyboard focus can be moved to a component of the page using a keyboard interface, then focus can be moved away from that component using only a keyboard interface, and, if it requires more than unmodified arrow or tab keys or other standard exit methods, the user is advised of the method for moving focus away.	Supports	
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2) If a keyboard shortcut is implemented in content using only letter (including upper- and lower-case letters), punctuation, number, or symbol characters, then at least one of the following is true: **Turn off :** A mechanism is available to turn the shortcut off; **Remap :** A mechanism is available to remap the shortcut to include one or more non-printable keyboard keys (e.g., Ctrl, Alt); **Active only on focus :** The keyboard shortcut for a user interface component is only active when that component has focus.	Supports	
2.2.1 Timing Adjustable (Level A) For each time limit that is set by the content, at least one of the following is true: **Turn off :** The user is allowed to turn off the time limit before encountering it; or **Adjust :** The user is allowed to adjust the time limit before encountering it over a wide range that is at least ten times the length of the default setting; or **Extend :** The user is warned before time expires and given at least 20 seconds to extend the time limit with a simple action (for example, "press the space bar"), and the user is allowed to extend the time limit at least ten times; or **Real-time Exception :** The time limit is a required part of a real-time event (for example, an auction), and no alternative to the time limit is possible; or **Essential Exception :** The time limit is essential and extending it would invalidate the activity; or **20 Hour Exception :** The time limit is longer than 20 hours.	Supports	
2.2.2 Pause, Stop, Hide (Level A) For moving, blinking, scrolling, or auto-updating information, all of the following are true: **Moving, blinking, scrolling :** For any moving, blinking	Not Applicable	Audio and video are not available in this component.

Criteria	Conformance Level	Remarks and Explanations
or scrolling information that (1) starts automatically, (2) lasts more than five seconds, and (3) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it unless the movement, blinking, or scrolling is part of an activity where it is essential; and **Auto-updating :** For any auto-updating information that (1) starts automatically and (2) is presented in parallel with other content, there is a mechanism for the user to pause, stop, or hide it or to control the frequency of the update unless the auto-updating is part of an activity where it is essential.		
2.3.1 Three Flashes or Below Threshold (Level A) Web pages do not contain anything that flashes more than three times in any one second period, or the flash is below the general flash and red flash thresholds.	Supports	
2.4.1 Bypass Blocks (Level A) A mechanism is available to bypass blocks of content that are repeated on multiple web pages.	Supports	
2.4.2 Page Titled (Level A) Web pages have titles that describe topic or purpose.	Supports	
2.4.3 Focus Order (Level A) If a web page can be navigated sequentially and the navigation sequences affect meaning or operation, focusable components receive focus in an order that preserves meaning and operability.	Supports	
2.4.4 Link Purpose (In Context) (Level A) The purpose of each link can be determined from the link text alone or from the link text together with its programmatically determined link context, except where the purpose of the link would be ambiguous to users in general.	Supports	
2.5.1 Pointer Gestures (Level A 2.1 and 2.2) All functionality that uses multipoint or path-based gestures for operation can be operated with a single pointer without a path-based gesture, unless a multipoint or path-based gesture is essential.	Not Applicable	Pointer gestures are not applicable as there is no touchscreen functionality across AppScan. All interactions could be done with one point of interaction.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2)	Supports	

Criteria	Conformance Level	Remarks and Explanations
For functionality that can be operated using a single pointer, at least one of the following is true: **No Down-Event :** The down-event of the pointer is not used to execute any part of the function; **Abort or Undo :** Completion of the function is on the up-event, and a mechanism is available to abort the function before completion or to undo the function after completion; **Up Reversal :** The up-event reverses any outcome of the preceding down-event; **Essential :** Completing the function on the down-event is essential.		
2.5.3 Label in Name (Level A 2.1 and 2.2) For user interface components with labels that include text or images of text, the name contains the text that is presented visually.	Not Applicable	No such case in this component.
2.5.4 Motion Actuation (Level A 2.1 and 2.2) Functionality that can be operated by device motion or user motion can also be operated by user interface components and responding to the motion can be disabled to prevent accidental actuation, except when: **Supported Interface :** The motion is used to operate functionality through an accessibility supported interface; **Essential :** The motion is essential for the function and doing so would invalidate the activity.	Not Applicable	No such case in this component.
3.1.1 Language of Page (Level A) The default human language of each Web page can be programmatically determined.	Supports	
3.2.1 On Focus (Level A) When any user interface component receives focus, it does not initiate a change of context.	Supports	
3.2.2 On Input (Level A) When any user interface component receives focus, it does not initiate a change of context.	Supports	

Criteria	Conformance Level	Remarks and Explanations
3.2.6 Consistent Help (Level A 2.2 only) If a web page contains any of the following help mechanisms, and those mechanisms are repeated on multiple web pages within a set of web pages, they occur in the same order relative to other page content, unless a change is initiated by the user: ● Human contact details; ● Human contact mechanism; ● Self-help option; ● A fully automated contact mechanism.	Not Applicable	Help is independent of this component and available through the core product.
3.3.1 Error Identification (Level A) If an input error is automatically detected, the item that is in error is identified and the error is described to the user in text.	Not Applicable	No such case in this component.
3.3.2 Labels or Instructions (Level A) Labels or instructions are provided when content requires user input.	Not Applicable	No such case in this component.
3.3.7 Redundant Entry (Level A 2.2 only) Information previously entered by or provided to the user that is required to be entered again in the same process is either: ● auto-populated, or ● available for the user to select. Except when: ● re-entering the information is essential, ● the information is required to ensure the security of the content, or ● previously entered information is no longer valid.	Not Applicable	No such case in this component.
4.1.1 Parsing (Level A) DEPRECATED - OBSOLETE	Not Applicable	For WCAG 2.0, 2.1, EN 301 549, and Revised 508 Standards, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata.
4.1.2 Name, Role, Value (Level A) For all user interface components (including but not limited to: form elements, links and components generated by scripts), the name and role	Partially Supports	Some elements do not have name, role and value attribute.

Criteria	Conformance Level	Remarks and Explanations
can be programmatically determined; states, properties, and values that can be set by the user can be programmatically set; and notification of changes to these items is available to user agents, including assistive technologies.		

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA) Captions are provided for all live audio content in synchronized media.	Not Applicable	Audio and video are not available in this component.
1.2.5 Audio Description (Prerecorded) (Level AA) Audio description is provided for all prerecorded video content in synchronized media.	Not Applicable	Audio is not available in the component.
1.3.4 Orientation (Level AA 2.1 and 2.2) Content does not restrict its view and operation to a single display orientation, such as portrait or landscape, unless a specific display orientation is essential.	Supports	
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2) The purpose of each input field collecting information about the user can be programmatically determined when: ● The input field serves a purpose identified in the Input Purposes for user interface components section; and ● The content is implemented using technologies with support for identifying the expected meaning for form input data.	Not Applicable	No such case in this component.

Criteria	Conformance Level	Remarks and Explanations
1.4.3 Contrast (Minimum) (Level AA) The visual presentation of text and images of text has a contrast ratio of at least 4.5:1, except for the following: **Large Text :** Large-scale text and images of large-scale text have a contrast ratio of at least 3:1; **Incidental :** Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, or that are part of a picture that contains significant other visual content, have no contrast requirement.; **Logotypes :** Text that is part of a logo or brand name has no contrast requirement.	Supports	
1.4.4 Resize text (Level AA) Except for captions and images of text, text can be resized without assistive technology up to 200 percent without loss of content or functionality.	Supports	
1.4.5 Images of Text (Level AA) If the technologies being used can achieve the visual presentation, text is used to convey information rather than images of text except for the following: **Customizable :** The image of text can be visually customized to the user's requirements; **Essential :** A particular presentation of text is essential to the information being conveyed.	Supports	
1.4.10 Reflow (Level AA 2.1 and 2.2) Content can be presented without loss of information or functionality, and without requiring scrolling in two dimensions for: ● Vertical scrolling content at a width equivalent to 320 CSS pixels; ● Horizontal scrolling content at a height equivalent to 256 CSS pixels. Except for parts of the content which require two-dimensional layout for usage or meaning.	Supports	
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2) The visual presentation of the following have a contrast ratio of at least 3:1 against adjacent color(s): **User Interface Components :** Visual information required to identify user interface components and states, except for inactive components or where the appearance of the component is determined by the user agent and not modified by the	Supports	

Criteria	Conformance Level	Remarks and Explanations
author; **Graphical Objects :** Parts of graphics required to understand the content, except when a particular presentation of graphics is essential to the information being conveyed.		
[1.4.12 Text Spacing](#) (Level AA 2.1 and 2.2) In content implemented using markup languages that support the following text style properties, no loss of content or functionality occurs by setting all of the following and by changing no other style property: ● Line height (line spacing) to at least 1.5 times the font size; ● Spacing following paragraphs to at least 2 times the font size; ● Letter spacing (tracking) to at least 0.12 times the font size; ● Word spacing to at least 0.16 times the font size. Exception: Human languages and scripts that do not make use of one or more of these text style properties in written text can conform using only the properties that exist for that combination of language and script.	Supports	
[1.4.13 Content on Hover or Focus](#) (Level AA 2.1 and 2.2) Where receiving and then removing pointer hover or keyboard focus triggers additional content to become visible and then hidden, the following are true: **Dismissible :** A mechanism is available to dismiss the additional content without moving pointer hover or keyboard focus, unless the additional content communicates an input error or does not obscure or replace other content; **Hoverable :** If pointer hover can trigger the additional content, then the pointer can be moved over the additional content without the additional content disappearing; **Persistent :** The additional content remains visible until the hover or focus trigger is removed, the user dismisses it, or its information is no longer valid. Exception: The visual presentation of the additional content is controlled by the user agent and is not modified by the author.	Supports	
[2.4.5 Multiple Ways](#) (Level AA) More than one way is available to locate a web page within a set of web pages except where the web page is the result of, or a step in, a process.	Supports	
[2.4.6 Headings and Labels](#) (Level AA) Headings and labels describe topic or purpose.	Supports	

Criteria	Conformance Level	Remarks and Explanations
2.4.7 Focus Visible (Level AA) Any keyboard operable user interface has a mode of operation where the keyboard focus indicator is visible.	Partially Supports	In "External references" section, border sides are highlighted except the left-side border.
2.4.11 Focus Not Obscured (Minimum) (Level AA 2.2 only) When a user interface component receives keyboard focus, the component is not entirely hidden due to author-created content.	Supports	
2.5.7 Dragging Movements (Level AA 2.2 only) All functionality that uses a dragging movement for operation can be achieved by a single pointer without dragging, unless dragging is essential or the functionality is determined by the user agent and not modified by the author.	Not Applicable	No dragging movement functionality.
2.5.8 Target Size (Minimum) (Level AA 2.2 only) The size of the target for pointer inputs is at least 24 by 24 CSS pixels, except when: **Spacing :** Undersized targets (those less than 24 by 24 CSS pixels) are positioned so that if a 24 CSS pixel diameter circle is centered on the bounding box of each, the circles do not intersect another target or the circle for another undersized target; **Equivalent :** The function can be achieved through a different control on the same page that meets this criterion; **Inline :** The target is in a sentence or its size is otherwise constrained by the line-height of non-target text; **User Agent Control :** The size of the target is determined by the user agent and is not modified by the author; **Essential :** A particular presentation of the target is essential or is legally required for the information being conveyed.	Partially Supports	Some languages are not 24 pixels by 24 pixels.
3.1.2 Language of Parts (Level AA)The human language of each passage or phrase in the content can be programmatically determined except for proper names, technical terms, words of indeterminate language, and words or phrases that have become part of the vernacular of the immediately surrounding text.	Partially Supports	English only.
3.2.3 Consistent Navigation (Level AA) Navigational mechanisms that are repeated on multiple web pages within a set of web pages occur in the same relative order each time they are repeated, unless a change is initiated by the user.	Supports	

Criteria	Conformance Level	Remarks and Explanations
3.2.4 Consistent Identification (Level AA) Components that have the same functionality within a set of web pages are identified consistently.	Supports	
3.3.3 Error Suggestion (Level AA) If an input error is automatically detected and suggestions for correction are known, then the suggestions are provided to the user, unless it would jeopardize the security or purpose of the content.	Not Applicable	No such case in this component.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA) For web pages that cause legal commitments or financial transactions for the user to occur, that modify or delete user-controllable data in data storage systems, or that submit user test responses, at least one of the following is true: **Reversible :** Submissions are reversible.; **Checked :** Data entered by the user is checked for input errors and the user is provided an opportunity to correct them.; **Confirmed :** A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission.	Not Applicable	No such case in this component.
3.3.8 Accessible Authentication (Minimum) (Level AA 2.2 only) A cognitive function test (such as remembering a password or solving a puzzle) is not required for any step in an authentication process unless that step provides at least one of the following: **Alternative :** Another authentication method that does not rely on a cognitive function test.; **Mechanism :** A mechanism is available to assist the user in completing the cognitive function test.; **Object Recognition :** The cognitive function test is to recognize objects.; **Personal Content :** The cognitive function test is to identify non-text content the user provided to the website.	Not Applicable	No such case in this component.
4.1.3 Status Messages (Level AA 2.1 and 2.2) In content implemented using markup languages, status messages can be programmatically determined through role or properties such that they can be presented to the user by assistive technologies without receiving focus.	Supports	

Table 3: Success Criteria, Level AAA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.6 Sign Language (Prerecorded) (Level AAA)	Not Evaluated	
1.2.7 Extended Audio Description (Prerecorded) (Level AAA)	Not Evaluated	
1.2.8 Media Alternative (Prerecorded) (Level AAA)	Not Evaluated	
1.2.9 Audio-only (Live) (Level AAA)	Not Evaluated	
1.3.6 Identify Purpose (Level AAA 2.1 and 2.2)	Not Evaluated	
1.4.6 Contrast (Enhanced) (Level AAA)	Not Evaluated	
1.4.7 Low or No Background Audio (Level AAA)	Not Evaluated	
1.4.8 Visual Presentation (Level AAA)	Not Evaluated	
1.4.9 Images of Text (No Exception) (Level AAA)	Not Evaluated	
2.1.3 Keyboard (No Exception) (Level AAA)	Not Evaluated	
2.2.3 No Timing (Level AAA)	Not Evaluated	
2.2.4 Interruptions (Level AAA)	Not Evaluated	
2.2.5 Re-authenticating (Level AAA)	Not Evaluated	
2.2.6 Timeouts (Level AAA 2.1 and 2.2)	Not Evaluated	

Criteria	Conformance Level	Remarks and Explanations
2.3.2 Three Flashes (Level AAA)	Not Evaluated	
2.3.3 Animation from Interactions (Level AAA 2.1 and 2.2)	Not Evaluated	
2.4.8 Location (Level AAA)	Not Evaluated	
2.4.9 Link Purpose (Link Only) (Level AAA)	Not Evaluated	
2.4.10 Section Headings (Level AAA)	Not Evaluated	
2.4.12 Focus Not Obscured (Enhanced) (Level AAA 2.2 only)	Not Evaluated	
2.4.13 Focus Appearance (Level AAA 2.2 only)	Not Evaluated	
2.5.5 Target Size (Level AAA 2.1 and 2.2)	Not Evaluated	
2.5.6 Concurrent Input Mechanisms (Level AAA 2.1 and 2.2)	Not Evaluated	
3.1.3 Unusual Words (Level AAA)	Not Evaluated	
3.1.4 Abbreviations (Level AAA)	Not Evaluated	
3.1.5 Reading Level (Level AAA)	Not Evaluated	
3.1.6 Pronunciation (Level AAA)	Not Evaluated	
3.2.5 Change on Request (Level AAA)	Not Evaluated	
3.3.5 Help (Level AAA)	Not Evaluated	
3.3.6 Error Prevention (All) (Level AAA)	Not Evaluated	
3.3.9 Accessible Authentication (Enhanced) (Level AAA 2.2 only)	Not Evaluated	

Revised Section 508 Report

Notes:

Chapter 3: Functional Performance Criteria (FPC)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	Most functionality is usable without vision. Exceptions are noted in: ● 2.4.7 - Focus Visible ● 3.1.2 - Language of Parts ● 4.1.2 - Name, Role, Value
302.2 With Limited Vision	Supports	
302.3 Without Perception of Color	Supports	
302.4 Without Hearing	Not Applicable	
302.5 With Limited Hearing	Not Applicable	
302.6 Without Speech	Not Applicable	This component does not require voice commands.
302.7 With Limited Manipulation	Partially Supports	Most functionality is usable with limited manipulation and does not require fine motor control or simultaneous manual operations. Exceptions are noted in: ● 2.1.1 - Target Size (Minimum)
302.8 With Limited Reach and Strength	Partially Supports	Most functions of this component are usable with limited reach and strength. Exceptions are noted in: ● 2.1.1 - Target Size (Minimum)
302.9 With Limited Language, Cognitive, and Learning Abilities	Partially Supports	This component is meant to be used by experts, a learning curve is expected. Most functions of the component are

Criteria	Conformance Level	Remarks and Explanations
		usable with limited cognitive, language, and learning abilities. The component provides descriptive labels and contextual help. Exceptions are noted in: ● 3.1.2 - Language of Parts

Chapter 4: Hardware

Notes: The requirements of this chapter do not apply as the component is not hardware.

Chapter 5: Software

Notes:

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.2 AA	See WCAG 2.2	See information in WCAG 2.2
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Not Applicable	The software is not a platform.
502.2.2 No Disruption of Accessibility Features	Partially Supports	The software does not disrupt platform features that are defined in the platform documentation as accessibility features. Exceptions are noted in: ● 2.4.7 - Focus Visible ● 4.1.2 - Name, Role, Value
502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Partially Supports	The software can programmatically determine object role, states(s), properties, boundary, name and description. Exceptions are noted in:

Criteria	Conformance Level	Remarks and Explanations
		● 4.1.2 - Name, Role, Value
502.3.2 Modification of Object Information	Not Available	Navigation and Menu items not available in this component.
502.3.3 Row, Column, and Headers	Partially Supports	The software can programmatically determine if an object is in a data table, the occupied rows and columns and any headers associated within. Exceptions are noted in: ● 4.1.2 - Name, Role, Value
502.3.4 Values	Partially Supports	The software can programmatically determine any current value(s) and any set or range of allowable values associated with an object. Exceptions are noted in: ● 4.1.2 - Name, Role, Value
502.3.5 Modification of Values	Partially Supports	The software is capable of programmatically setting any value(s) that can be set by the user, including through assistive technology . Exceptions are noted in: ● 4.1.2 - Name, Role, Value
502.3.6 Label Relationships	Partially Supports	The software can programmatically determine any relationship that a component has as a label for another component or of being labeled by another component. Exceptions are noted in: ● 4.1.2 - Name, Role, Value
502.3.7 Hierarchical Relationships	Not Applicable	Navigation and Menu items not available in this component.
502.3.8 Text	Not Applicable	Supported by browser.
502.3.9 Modification of Text	Not Applicable	Supported by browser.
502.3.10 List of Actions	Not Applicable	Supported by browser.

Criteria	Conformance Level	Remarks and Explanations
502.3.11 Actions on Objects	Not Applicable	Supported by browser.
502.3.12 Focus Cursor	Partially Supports	The software can expose information and mechanisms necessary to track focus, text insertion point and selection attributes of the user interface. Exceptions are noted in: ● 2.4.7 - Focus Visible
502.3.13 Modification of Focus Cursor	Not Applicable	Supported by browser.
502.3.14 Event Notification	Partially Supports	The software can make available to assistive technology notifications of events relevant to user interactions. Exceptions are noted in: ● 4.1.2 - Name, Role, Value
502.4 Platform Accessibility Features	Not Applicable	The software is not a platform.
503 Applications	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Not Applicable	Supported by browser.
503.3 Alternative User Interfaces	Not Applicable	This component does not have an alternative user interface.
503.4 User Controls for Captions and Audio Description	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption Controls	Not Applicable	Audio and video are not available in this component.
503.4.2 Audio Description Controls	Not Applicable	Audio and video are not available in this component.
504 Authoring Tools	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter "not applicable")	See WCAG 2.2 section	See information in WCAG 2.2 section
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Not Applicable	This component has no content authoring tools.
504.2.2 PDF Export	Not Applicable	This component has no content authoring tools.
504.3 Prompts	Not Applicable	This component has no content authoring tools.

Criteria	Conformance Level	Remarks and Explanations
504.4 Templates	Not Applicable	This component has no content authoring tools.

Chapter 6: Support Documentation and Services

Notes:

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required
602 Support Documentation	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.
602.3 Electronic Support Documentation	See WCAG 2.2 section	See information in WCAG 2.2 section
602.4 Alternate Formats for Non-Electronic Support Documentation	Not Applicable	All documentation is electronic.
603 Support Services	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.
603.3 Accommodation of Communication Needs	Not Evaluated	

EN 301 549 Report

Notes:

Clause 4: Functional Performance Statements (FPS)

Notes:

Criteria	Conformance Level	Remarks and Explanations
4.2.1 Usage without vision	Partially Supports	Most functionality is usable without vision. Exceptions are noted in: ● 2.4.7 - Focus Visible ● 3.1.2 - Language of Parts ● 4.1.2 - Name, Role, Value
4.2.2 Usage with limited vision	Partially Supports	Most functions of this component are usable with limited vision. Exceptions are noted in: ● 1.4.11 - Non-text Contrast ● 1.4.13 - Content on Hover or Focus
4.2.3 Usage without perception of colour	Supports	
4.2.4 Usage without hearing	Not Applicable	
4.2.5 Usage with limited hearing	Not Applicable	
4.2.6 Usage with no or limited vocal capability	Not Applicable	This component does not require voice commands.
4.2.7 Usage with limited manipulation or strength	Partially Supports	Most functionality is usable with limited manipulation and does not require fine motor control or simultaneous manual operations. Exceptions are noted in: ● 2.1.1 - Keyboard ● 2.1.2 - No Keyboard Trap ● 2.1.4 - Character Key Shortcuts ● 2.5.3 - Label in Name

4.2.8 Usage with limited reach	Partially Supports	Most functions of this component are usable with limited reach and strength. Exceptions are noted in: ● 2.5.8 - Target Size
4.2.9 Minimize photosensitive seizure triggers	Supports	
4.2.10 Usage with limited cognition, language or learning	Partially Supports	This component is meant to be used by experts, a learning curve is expected. Most functions of this component are usable with limited cognitive, language, and learning abilities. This component provides descriptive labels and contextual help. Exceptions are noted in: ● 3.1.2 - Language of Parts
4.2.11 Privacy	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.

Clause 5: Generic Requirements

Notes:

Criteria	Conformance Level	Remarks and Explanations
5.1 Closed functionality	Heading cell – no response required	Heading cell – no response required
5.1.2 General	Heading cell – no response required	Heading cell – no response required
5.1.2.1 Closed functionality	See 5.2 through 13	See information in 5.2 through 13
5.1.2.2 Assistive technology	See 5.1.3 through 5.1.6	See information in 5.1.3 through 5.1.6
5.1.3 Non-visual access	Heading cell – no response required	Heading cell – no response required
5.1.3.1 Audio output of visual information	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.2 Auditory output delivery including speech	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.3 Auditory output correlation	Not Applicable	There are no component functions closed to assistive technology.

Criteria	Conformance Level	Remarks and Explanations
5.1.3.4 Speech output user control	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.5 Speech output automatic interruption	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.6 Speech output for non-text content	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.7 Speech output for video information	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.8 Masked entry	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.9 Private access to personal data	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.10 Non-interfering audio output	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.11 Private listening volume	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.12 Speaker volume	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.13 Volume reset	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.14 Spoken languages	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.15 Non-visual error identification	Not Applicable	There are no component functions closed to assistive technology.
5.1.3.16 Receipts, tickets, and transactional outputs	Not Applicable	There are no component functions closed to assistive technology.
5.1.4 Functionality closed to text enlargement	Not Applicable	There are no component functions closed to assistive technology.
5.1.5 Visual output for auditory information	Not Applicable	There are no component functions closed to assistive technology.
5.1.6 Operation without keyboard interface	Heading cell – no response required	Heading cell – no response required
5.1.6.1 Closed functionality	See 5.1.3.1 through 5.1.3.16	See information in 5.1.3.1 through 5.1.3.16

Criteria	Conformance Level	Remarks and Explanations
5.1.6.2 Input focus	Not Applicable	There are no component functions closed to assistive technology.
5.1.7 Access without speech	Not Applicable	There are no component functions closed to assistive technology.
5.2 Activation of accessibility features	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.
5.3 Biometrics	Not Applicable	This component does not require biometrics.
5.4 Preservation of accessibility information during conversion	Not Applicable	This component does not convert any content with a11y information.
5.5 Operable parts		
5.5.1 Means of operation	Not Applicable	This component has only non-mechanical operable parts.
5.5.2 Operable parts discernibility	Not Applicable	This component has only non-mechanical operable parts.
5.6 Locking or toggle controls	Heading cell – no response required	Heading cell – no response required
5.6.1 Tactile or auditory status	Not Applicable	
5.6.2 Visual status	Not Applicable	
5.7 Key repeat	Not Applicable	
5.8 Double-strike key acceptance	Not Applicable	
5.9 Simultaneous user actions	Not Applicable	

Clause 6: ICT with Two-Way Voice Communication

Notes: This clause is not applicable as it is only relevant to products providing two-way voice communication.

Clause 7: ICT with Video Capabilities

Notes: This clause is not applicable as it is only relevant to products providing video capabilities.

Clause 8: Hardware

Notes: The requirements of this clause do not apply as this component is not hardware.

Clause 9: Web *(see WCAG 2.x section)*

Notes: See WCAG Section.

Clause 10: Non-Web Documents

Notes:

Criteria	Conformance Level	Remarks and Explanations
10.0 General (informative)	Heading cell – no response required	Heading cell – no response required
10.1.1.1 through 10.4.1.3	See WCAG 2.2 section	See information in WCAG 2.2 section
10.5 Caption positioning	Not Applicable	This component does not include non-web documents.
10.6 Audio description timing	Not Applicable	This component does not include non-web documents.

Clause 11: Software

Notes:

Criteria	Conformance Level	Remarks and Explanations
11.0 General (informative)	Heading cell – no response required	Heading cell – no response required
11.1.1.1 through 11.4.1.3	See WCAG 2.2 section	See information in WCAG 2.2 section
11.5 Interoperability with assistive technology	Heading cell – no response required	Heading cell – no response required
11.5.1 Closed functionality	Heading cell – no response required	Heading cell – no response required
11.5.2 Accessibility services	Heading cell – no response required	Heading cell – no response required
11.5.2.1 Platform accessibility service support for software that provides a user interface	See 11.5.2.5 through 11.5.2.17	See information in 11.5.2.5 through 11.5.2.17
11.5.2.2 Platform accessibility service support for assistive technologies	See 11.5.2.5 through 11.5.2.17	See information in 11.5.2.5 through 11.5.2.17

Criteria	Conformance Level	Remarks and Explanations
11.5.2.3 Use of accessibility services	See information in 11.5.2.5 through 11.5.2.17	See information in 11.5.2.5 through 11.5.2.17
11.5.2.4 Assistive technology	Not Applicable	This component is not assistive technology.
11.5.2.5 Object information	Partially Supports	Exceptions are noted in: ● 4.1.2 - Info and Relationships
11.5.2.6 Row, column, and headers	Not Applicable	Navigation and Menu items not available in this component.
11.5.2.7 Values	Partially Supports	Exceptions are noted in: ● 4.1.2 - Info and Relationships
11.5.2.8 Label relationships	Partially Supports	Exceptions are noted in: ● 4.1.2 - Info and Relationships
11.5.2.9 Parent-child relationships	Not Applicable	Navigation and Menu items not available in this component.
11.5.2.10 Text	Not Applicable	Supported by bowser.
11.5.2.11 List of available actions	Not Applicable	Supported by bowser.
11.5.2.12 Execution of available actions	Not Applicable	Supported by bowser.
11.5.2.13 Tracking of focus and selection attributes	Partially Supports	Exceptions are noted in: ● 2.4.7 - Focus Visible
11.5.2.14 Modification of focus and selection attributes	Not Applicable	Supported by bowser.
11.5.2.15 Change notification	Partially Supports	Exceptions are noted in: ● 4.1.2 - Info and Relationships
11.5.2.16 Modifications of states and properties	Not Applicable	Supported by bowser.
11.5.2.17 Modifications of values and text	Not Applicable	Supported by bowser.
11.6 Documented accessibility usage	Heading cell – no response required	Heading cell – no response required
11.6.1 User control of accessibility features	Not Applicable	This component is not a platform.
11.6.2 No disruption of accessibility features	Partially Supports	Exceptions are noted in: ● 2.4.7 - Focus Visible ● 4.1.2 - Name, Role, Value
11.7 User preferences	Partially Supports	Exceptions are noted in: ● 2.4.7 - Focus Visible ● 4.1.2 - Name, Role, Value

Criteria	Conformance Level	Remarks and Explanations
11.8 Authoring tools	Heading cell – no response required	Heading cell – no response required
11.8.1 Content technology	Heading cell – no response required	Heading cell – no response required
11.8.2 Accessible content creation	See WCAG 2.2 section (If not authoring tool, enter "Not Applicable")	See information in WCAG 2.2 section
11.8.3 Preservation of accessibility information in transformations	Not Applicable	This component does not include authoring tools.
11.8.4 Repair assistance	Not Applicable	This component does not include authoring tools.
11.8.5 Templates	Not Applicable	This component does not include authoring tools.

Clause 12: Documentation and Support Services

Notes:

Criteria	Conformance Level	Remarks and Explanations
12.1 Product documentation	Heading cell – no response required	Heading cell – no response required
12.1.1 Accessibility and compatibility features	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.
12.1.2 Accessible documentation	See WCAG 2.2 section	See information in WCAG 2.2 section
12.2 Support Services	Heading cell – no response required	Heading cell – no response required
12.2.2 Information on accessibility and compatibility features	Not Applicable	This component does not have specific accessibility features apart from browser a11y support.
12.2.3 Effective communication	Not Evaluated	
12.2.4 Accessible documentation	See WCAG 2.2 section	See information in WCAG 2.2 section.

Clause [13: ICT Providing Relay or Emergency Service Access](#)

Notes: This clause is not applicable as this component does not produce any software which provides emergency or relay services.
