# Operating Systems

The Operating systems section specifies the operating systems that BigFix Lifecycle 9.2.6 supports, organized by operating system family.

## Operating system families

[AIX](#) [HP](#) [Linux](#) [Mac OS](#) [Solaris](#) [Windows](#)

## Component support

- Full
- Partial
- None

## AIX

### Summary

Operating system	Operating system minimum	Hardware	Bitness	Product minimum	Components  	Notes?
<a href="#">AIX 6.1</a>	TL4	POWER System - Big Endian	64-Exploit	9.2.6	<input type="radio"/> <input checked="" type="radio"/>	No
<a href="#">AIX 7.1</a>	Base	POWER System - Big Endian	64-Exploit	9.2.6	<input type="radio"/> <input checked="" type="radio"/>	No
<a href="#">AIX 7.2</a>	Base	POWER System - Big Endian	64-Exploit	9.2.6	<input type="radio"/> <input checked="" type="radio"/>	No

## AIX 6.1 POWER System - Big Endian

**Legend:** Supported Not supported

### Component

#### Server

Endpoint Manager Console

Endpoint Manager Server

#### Agent or client

Endpoint Manager Agent

Endpoint Manager Relay

### Product Support for the Operating System Technology Levels, Current and Future -->

Deployment unit	Component	Bitness	Base	TL1	TL2	TL3	TL4	TL5	TL6	TL7	TL8	TL9	...>
Agent or client	Endpoint Manager Agent	64-Exploit											
	Endpoint Manager Relay	64-Exploit											

## AIX 7.1 POWER System - Big Endian

**Legend:** Supported Not supported

### Component

#### Server

Endpoint Manager Console

Endpoint Manager Server

#### Agent or client

Endpoint Manager Agent

Endpoint Manager Relay

Agent or client	Endpoint Manager Agent	64-Exploit				

## Linux Notes

1. kernel-2.6.32-516.el6 is the minimum prerequisite level.
2. This operating system is no longer in service. Please refer to IBM's policy on unsupported operating systems:  
<https://www.ibm.com/support/customercare/sas/f/handbook/policies.html#unsupported>

## Mac OS

### Summary

Operating system	Operating system minimum	Hardware	Bitness	Product minimum	Components	Notes?
Mac OS X Snow Leopard 10.6	Base	x86-32	32	9.2.6		No
Mac OS X Snow Leopard 10.6	Base	x86-64	64-Tolerate	9.2.6		No
OS X Lion 10.7	Base	x86-64	64-Tolerate	9.2.6		No
OS X Mountain Lion 10.8	Base	x86-64	64-Tolerate	9.2.6		No
OS X Mavericks 10.9	Base	x86-64	64-Tolerate	9.2.6		No
OS X Yosemite 10.10	Base	x86-64	64-Tolerate	9.2.6		Yes

## Windows Notes

1. Patch Content and OSD supported on 9.2.5 Agent and above.
2. This operating system is no longer in service. Please refer to IBM's policy on unsupported operating systems:  
<https://www.ibm.com/support/customercare/sas/f/handbook/policies.html#unsupported>

# Hypervisors

The Hypervisors section specifies the hypervisors that BigFix Lifecycle 9.2.6 support.

**Component support**

- Full
- Partial
- None

## Installable software

### Operating System Families

[AIX](#)   [Linux](#)   [Mac OS](#)   [Solaris](#)   [Windows](#)

All IEM components are supported on virtual hardware. Any hypervisor technology specified in the IBM Virtualization Policy may be used as long as the guest OS is supported by the installed IEM component as indicated in the OS sections of this compatibility matrix. See Supported Software tab - Virtualization Management for supported Hypervisor Agents.

## AIX

### Summary

Hypervisor	Product minimum	Components  	Guest operating system restriction?	Notes?
<a href="#">WPAR: Product installed in System Workload Partition AIX 6.1</a>	9.2.6	<input type="radio"/> <input checked="" type="radio"/>	Yes	Yes

### Supported Guest Operating Systems

Components	Supported operating systems
<p><i>All components that this hypervisor supports</i></p> <p><b>Agent or client</b></p> <ul style="list-style-type: none"> <li>• Endpoint Manager Agent</li> <li>• Endpoint Manager Relay</li> </ul>	<p><i>All supported operating systems</i></p> <ul style="list-style-type: none"> <li>• AIX 6.1 POWER System - Big Endian</li> <li>• AIX 7.1 POWER System - Big Endian</li> <li>• AIX 7.2 POWER System - Big Endian</li> </ul>

## Notes applying to hypervisors on AIX operating systems

1. Supports Detached WPAR only.

# Linux

## Summary

Hypervisor	Product minimum	Components 	Guest operating system restriction?	Notes?
IBM PR/SM any version	9.2.6		Yes	No
IBM PowerVM Hypervisor (LPAR, DPAR, Micro-Partition) any supported version	9.2.6		Yes	Yes
KVM in SUSE Linux Enterprise Server (SLES) 11	9.2.6		Yes	No
Red Hat KVM as delivered with Red Hat Enterprise Linux (RHEL) and its RHEV equivalent 5.4	9.2.6		Yes	No
Red Hat KVM as delivered with Red Hat Enterprise Linux (RHEL) and its RHEV equivalent 6.0	9.2.6		Yes	No
VMware ESX 4.0	9.2.6		Yes	No
VMware ESX 4.1	9.2.6		Yes	No
VMware ESXi 4.0	9.2.6		Yes	Yes
VMware ESXi 4.1	9.2.6		Yes	Yes
VMware ESXi 5.0	9.2.6		Yes	Yes
VMware ESXi 5.1	9.2.6		Yes	Yes
VMware ESXi 5.5	9.2.6		Yes	Yes
z/VM 6.1	9.2.6		Yes	No

- Endpoint Manager Console

#### Agent or client

- Endpoint Manager Agent
- Endpoint Manager Relay

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	2008 R2	Future Versions, Releases	Future Fix Packs
Server	Endpoint Manager Server	 (1)		

## Databases Notes

1. Ships with MS-SQL Express 2008 R2 for evaluation purposes. For Windows environments, Customer will provide full version of MS-SQL Server 2008, 2012, or 2014. For Linux environments, DB2 Workgroup Server Edition 10.5 is provided. Note: Ensure that the SQL collation of the database is not case sensitive.

# Supported software

The Supported software section specifies the additional software that BigFix Lifecycle 9.2.6 supports.

## Capabilities

LDAP Servers    Virtualization Management    Web Browsers

### Component Support

- Full
- Partial
- None

## LDAP Servers

### Summary

Supported software	Version	Supported software minimum	Product minimum	Components	Operating system restrictions?	Notes?
All LDAP Servers that support the LDAP V3 Specification	All versions and future fix packs	All versions	9.2.6	<input checked="" type="radio"/> <input type="radio"/>	No	No
Microsoft Active Directory	2008 and future fix packs	2008	9.2.6	<input checked="" type="radio"/> <input type="radio"/>	No	(1)
	2008 R2 and future fix packs	2008 R2	9.2.6	<input checked="" type="radio"/> <input type="radio"/>	No	(1)
	2012 and future fix packs	2012	9.2.6	<input checked="" type="radio"/> <input type="radio"/>	No	(1)

Supported software	Version	Supported software minimum	Product minimum	Components	Operating system restrictions?	Notes?
	2012 R2 and future fix packs	2012 R2	9.2.6		No	(1)

## Web Browsers Notes

1. Browser support applies to the WebReports capability of the product. Console and Client UI are not accessed via user browser.
2. Adobe Flash Player 12 or greater needs to be installed for Internet Explorer to use many dashboards and wizards in the BES Console. It is recommended that computers running the BES Console have the latest version of Adobe Flash Player installed for Internet Explorer. - For Windows Server 2012 or later, the "Desktop Experience" must be enabled. - For Windows 7 or Windows Server 2008, the Flash player must be updated using Flash Player fixlet in Updates for Windows Applications site, or directly using Adobe site. - For Windows 8 or later, or Windows Server 2012 or later, the Flash player is a part of Windows (as "Desktop Experience") and the Flash player must be updated using Flash player fixlet in Patches for Windows site, directly using Windows Update, or using update file from Microsoft download site.

# Hardware

BigFix Lifecycle 9.2.6 requires the following hardware organized by operating system family.

## Operating System Families

[Linux](#)   [Windows](#)

### Linux

Hardware	Components	Requirement	Applicable operating systems
Disk Space	<b>Server</b> <ul style="list-style-type: none"><li>Endpoint Manager Server</li></ul>		<ul style="list-style-type: none"><li>Red Hat Enterprise Linux (RHEL) Server 6 6.10 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.3 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.4 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.5 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.6 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.7 x86-64</li><li>Red Hat Enterprise Linux (RHEL) Server 6.8 x86-64</li></ul>

# Packaging list

---

BigFix Lifecycle 9.2.6 includes the following products:

---

## Co-packaged software

Product name	Capability	Applicable Operating System Families	Notes
DB2 Workgroup Server Edition 10.5	Databases	Linux	No

## Co-installed software

No co-installed software products specified.

# Glossary

---

**Bitness**

Compatibility of the product with the bit version support that is provided by an operating system. Different parts of a product might run on the same operating system but support different application bitness. For example, one part of the product might run only in 32-bit mode, whereas another might support 64-bit tolerate mode.

**31:** The product or part of the product runs as a 31-bit application in a 31-bit operating environment.

**32:** The product or part of the product runs as a 32-bit application in a 32-bit operating environment.

**64-tolerate:** The product or part of the product runs as a 32-bit application in a 64-bit operating environment.

**64-exploit:** The product or part of the product runs natively as a 64-bit application in a 64-bit operating environment.

---

**Co-packaged**

Additional products that are included in the product package.

---

**Co-installed**

Additional products that are included in the product package and installed when the product is installed.

---

**Deployment unit**

**Deployment Structure** identifies pieces of a product that can be independently deployed onto one or more machines in a distributed infrastructure.

- The top level of the deployment structure consists of one or more deployment units. There are four possible deployment units that a product might support: Desktop, Server, Agent or client, Mobile.
- Deployment units may be further divided into deployable **components**

**Desktop** deployment unit: Part of the deployment structure intended for use by a single user, typically installed on the user desktops. Examples of desktop deployment units include development tools, administrative tools, stand-alone business applications.

**Server** deployment unit: Part of the deployment structure that can provide services to multiple clients, providing the server in a client-server architecture. Examples of server deployment units include application servers, management servers, database servers and server-based business applications.

**Agent or client** deployment unit: Part of the deployment structure that allows remote connection between software. Examples of agent or client deployment

units include agents in management system that are installed in the same tier as the managed resources, a remote application, or database clients that are installed with the software accessing the remote services.

**Mobile** deployment unit: Part of the deployment structure intended for use by a single user, typically installed on a mobile device. An example of a mobile deployment unit is a mobile application.

---

<b>Hypervisor</b>	A virtual machine in which a product can run on a guest operating system.
-------------------	---

---

<b>Limited operating system support</b>	By default, the supported guest operating systems for a product and a hypervisor are the operating systems that are supported by both the product and the hypervisor. If a product restricts support to a subset of these operating systems, this restriction will be indicated by specifying that there is Limited Operating System Support.
---	---

---

<b>Operating system minimum</b>	The minimum operating system maintenance level that is required to run on the product.
---------------------------------	--

---

<b>Prerequisite minimum</b>	The minimum maintenance level that is required for the prerequisite to work with the product.
-----------------------------	---

---

<b>Product minimum</b>	The minimum maintenance level that is required for the product to run on the operating system, on an hypervisor, or work with a prerequisite product or supported software.
------------------------	---

---

<b>Supported software minimum</b>	The minimum maintenance level that is required for the supported software to work with the product.
-----------------------------------	---

---

<b>Long Term Support Release</b>	A Long Term Support Release is a recommended product level for which support, including defect and security updates, will be provided over a specified period of time.
----------------------------------	--

---

<b>Continuous Delivery Product</b>	A Continuous Delivery Product delivers new function to clients more frequently.
------------------------------------	---

---

<b>Continuous Delivery Product - Long Term Support Release</b>	A Continuous Delivery Product delivers new function to clients more frequently. Since frequent releases may not be suitable for all client environments, Long Term Support Releases provide a package that will be supported for a longer period of time.
